

SA 221 Wheat Quality Course

May 2 2019

What do test results tell you about your seed quality?

SoDak Labs is offering an online learning opportunity on wheat testing. You will gain knowledge on proper testing protocol, along with an understanding of lab results and comments. Topics include:

- * Triphasic pattern of water uptake
- * Fungi germination model (imbibition, prechill, temperature, mycelium/spores)
- * *Fusarium* life cycle, infection level, and wheat germination
- * Warm germination methods: rolled towel, flat blotter, sand
- * Accelerated aging test
- * Herbicide tests/interactions (Clearfield and glyphosate)
- * Cultivar purity tests

There is **no charge** for this one hour webinar, but **pre-registration by April 25th is required** so we can email you the presentation link to watch..

Our instructor, Tim Gutormson, brings 36 years of seed technology experience in testing and seed research. He has also instructed college level courses, workshops and webinars for 30 years. Tim has BS and MS degrees in Agronomy, is a Registered Seed Technologist of the SCST, past president of SCST, past chairman of the American Seed Research Foundation and the current chairman of Seed Testing Research Foundation. Tim is currently an owner of SoDak Labs, Inc., located in Brookings South Dakota.

Please visit our website for more information www.SoDakLabs.com or call Tim Gutormson at 605-692-2758.

Three ways to register: **please register by April 25th**

(1) Online at www.SoDakLabs.com (2) Fax this form to 605-692-2758 (3) Call Amanda Howey at 605-692-2758
