

SA 212 Corn Quality Course

June 6 2019

What do test results tell you about your seed quality?

SoDak Labs is offering an online learning opportunity on corn testing. You will gain knowledge on proper testing protocol, along with an understanding of lab results and comments. Topics include:

- * Seed deterioration model
- * Water uptake and mobilization of reserves
- * CCP tray and sand germination tests
- * Four vigor tests
- * Recommendations for ranking quality
- * Review of seed and seedling morphology
- * Good information for producers, QA, warehouse, and owners

There is **no charge** for this one hour webinar, but **pre-registration by May 30th is required** so we can email you the presentation link to watch..

Our instructor, Tim Gutormson, brings 36 years of seed technology experience in testing and seed research. He has also instructed college level courses, workshops and webinars for 30 years. Tim has BS and MS degrees in Agronomy, is a Registered Seed Technologist of the SCST, past president of SCST, past chairman of the American Seed Research Foundation and the current chairman of Seed Testing Research Foundation. Tim is currently an owner of SoDak Labs, Inc., located in Brookings South Dakota.

Please visit our website for more information www.SoDakLabs.com or call Tim Gutormson at 605-692-2758.

Three ways to register: **please register by May 30 2019**
