

Stepping into the Seed Testing Industry

SoDak Labs, located in Brookings, SD, is an employee-owned seed testing laboratory. We provide purity, germination, vigor, trait, ELISA, electrophoresis, and cultivar purity tests to seed producers in the US. Currently, our facility performs over 100,000 tests on 50 different species annually. SoDak Labs tests according to AOSA or ISTA rules. In addition, we provide training for ISTA sampling and seed testing.

Our philosophy is to provide quick, agronomically accurate service while continually improving our procedures and processes. Our laboratory processes are set up to have samples identified electronically. Electronic identification allows us to track methods specified by species, monitor equipment and testing conditions, and track/document the entire testing process.

As a SoDak Labs employee, you will learn the ins and outs of planting and processing samples for evaluation. As the season progresses, the ability to advance in responsibilities and pay becomes available. We provide flexible hours that work with your schedule as well as food benefits during your shifts. We are looking for hardworking and efficient employees with an interest in agriculture or science background to join our team.

Positions are available beginning Fall 2019.
